I am an 6th-semester undergraduate student studying Informatics at the Del Institute of Technology. I have a strong interest in web development. I am detail-oriented, adaptable, and possess problem-solving skills. I have practical experience in designing, developing, and optimizing web applications. I work well in teams and communicate effectively. I am eager to gain industry experience and stay updated with the latest web development practices to contribute to the creation of innovative web applications and exceptional user experiences.

EXPERIENCES
